

Career Google Slide Project

Once you have selected a career, you will make a Google Slide presentation that shows what you know (and what you have researched) about that career.

The Google Slide will need at least 15 slides. The slides need to have information that is pertinent to your career and fit the criteria listed below. The information needs to be factual from a reliable source.

Slides Set-up:

- Each slide should have minimal wording (10-25 words).
- Your presentation should have a theme (one background and similar text throughout).
- Make sure your text is easy to read.

Slides Needed:

1. Title page (include the name of the career, your name, teacher's name, class name, and the date)
2. Picture of the job (meaning a picture of someone doing the job or something related to the job)
3. Job Description (explain what the job is)
4. Job Description (offer more info and/or pictures)
5. Tasks (what you do on the job, describe an average day on the job, etc)
6. Work Environment (describe/show an example of where the job takes place)
7. Educational Requirements (what training, education you need)
8. Training/Schools (what are the best colleges, schools, etc that you would want to go to)
9. Skills needed (what are the everyday skills that are needed on the job)
10. Skills needed (same as above and/or pictures of those skills)
11. Salary Range (starting salary, average salary, how much you make)
- 12-14 Pictures of the job, or people doing the job, and a description of each image
- 15- Explain why you chose this career initially, and address whether or not you are still interested in pursuing the career after having completed your research.

IF YOU JUST COPY AND PASTE INFORMATION, YOU WILL EARN A ZERO

You may add more pictures, graphics, and related items to your Slide Show

Make your Slide Show more interesting by adding animations, etc; but, be sure that the special effects do not deter from the content of your presentation.

This assignment will be worth 45 points (3 points per slide).

You will also earn 5 participation points each day in class for work ethic and behavior.

Name _____

Career Google Slide Presentation Rubric

Complete your Google Slide Show. Before “sharing” your presentation with me, check to make sure that you have each required slide. Put a check on the line for completed slides and then turn this sheet into me when you “share” your Career Google Slide Presentation.
